

ALTIILIA supports customers in solving their specific business problems through tailor-made applications of MANTRA platform, providing fast, robust and high-scalable cloud services.

Smart Data for Smarter Business Strategies

CUSTOMER NEED

Online car insurance comparison service where users submit manual web forms (user name, vehicle type, risk class, etc.) so fast accurate semantic data extraction service for pdf or images with reduced errors would be cost effective improvement.

SOLUTION

MANTRA Document Data Capture enables to automatically interpret and extract relevant data from paper or images risk statements sent by users to 6sicuro web site servers, so web forms are automatically filled in without human intervention.

BENEFITS

More precise car insurance quotes with significant improvement in customer satisfaction, retention and loyalty, and reduction in customer churn.

As Big Data refers to any market field, ALTIILIA's MANTRA Platform allows to power **Smart Strategies and Solutions** for any industry: eCommerce, Publishing & Media, Financial Services, Telcos, Utilities, Retail, Government & Public Sector, Market Research, etc.
