

ALTIILIA supports customers in solving their specific business problems through tailor-made applications of MANTRA platform, providing fast, robust and high-scalable cloud services.

Smart Data for Smarter Business Strategies

CUSTOMER NEED

A leading player in product/price intelligence with need for ability to daily monitor prices of thousands of products sold by e-commerce web sites (Mediaworld, Amazon, Unieuro, Euronics, Eprice).

SOLUTION

MANTRA Web Content Extraction with product API to automatically browse dozens of e-commerce web sites to accurately extract hundreds of thousands products with all features stored in customer database.

BENEFITS

Perform high precision price intelligence to reduce costs for maintaining and updating web extraction tasks with simple and fast updates for new web sites and products.

As Big Data refers to any market field, ALTIILIA's MANTRA Platform allows to power **Smart Strategies and Solutions** for any industry: eCommerce, Publishing & Media, Financial Services, Telcos, Utilities, Retail, Government & Public Sector, Market Research, etc.
